PROFESSIONAL SUMMARY

Detail-oriented Full-Stack Developer with strong experience in building responsive web and blockchain applications. Passionate about clean code, problem solving, and delivering high-quality, scalable solutions. Seeking to contribute technical skills and innovation in a dynamic team.

SKILLS

Front End: HTML5 | CSS3 | Typescript | React.js | Next.js | Tailwind CSS
Backend: Express | Node.js | Rust | Firebase | Python | Django
Database: PostgreSQL | MySQL | MongoDB   **Tools**: Git | Github | Figma | Aws | Postman

WORK EXPERIENCE

[Reispar Technologies and Industries LTD]   **Junior Full Stack Engineer**   **04/2025 - Present**
- Developed secure REST APIs with Django-REST and integrated PostgreSQL for data persistence.
- Collaborated closely with UI/UX designers and product managers to deliver responsive, cross-browser compatible web apps.
- Participated in sprint planning, code reviews, and documentation to ensure code quality and team alignment.
- Implemented authentication, caching, and background tasks using tools like Redis and RabbitMQ.
- Monitored deployments and application performance across AWS, Azure, and GCP platforms.

[Nigerian Aviation Handling Company (NAHCO)]   **NYSC IT Intern**   **01/2024 - 11/2024**
- Installed and configured hardware and software, including operating systems and applications, ensuring minimal downtime and efficient system functionality.
- Offered technical support and troubleshooting for hardware, software, and network issues.
- Provided end-user support, resolving 100+ tickets weekly through the helpdesk system.
- Conducted staff training on new technologies and IT guidelines.
- Assisted in data management tasks, including maintaining and updating internal databases to ensure data accuracy and streamline access for authorized personnel.

[Web3-Builders-Alliance]   **Software Engineer**   **02/2024 - 04/2024**
- Designed an escrow UI with Next.js, TypeScript, and Tailwind CSS using an Anchor contract (Solana program).
- Actively contributed to Solana smart contract development, gaining hands-on experience in writing, testing, and deploying Solana programs using Rust and Anchor.
- Collaborated with a cross-functional team to implement blockchain transaction flows, ensuring secure and efficient transaction processing within the app.

[Builderz]   **Software Engineer**   **06/2023 - 12/2023**
- Converted Figma designs into pixel-perfect user interfaces using React, enhancing user experience.
- Integrated Solana API and RPC into the web application, successfully facilitating seamless communication between the blockchain and front-end interface.
- Collaborated with a team of four to transition all front-end applications from JavaScript to TypeScript, implementing Redux for efficient state management.
- Led the design and execution of unit and integration tests, ensuring robust and error-free application performance.

[Femtech IT, Ilorin]   **Intern**   **11/2021 - 03/2022**
- Actively contributed as a dedicated intern in a dynamic, fast-paced environment.
- Managed both front-end and back-end development for the company's Portfolio Analyst, Employee Tracking, and Account Management systems.
- Gained significant experience in using and developing APIs.

COMMUNITY EXPERIENCE

[Google Developer Student Club (GDSC), University of Ilorin]   **Member**   **04/2020 - 11/2021**

- Participated in Google Developer Student Club activities, focusing on Google technologies.
- Attended meetups & workshops, created content, and participated in industry events to promote and represent Google solutions

EDUCATION & QUALIFICATIONS

- **EDX** - Professional Certificate in Cloud and Application Development Foundations - An online professional certificate for foundational understanding of DevOps, Cloud Computing, Application development.
- **University of Ilorin -** Computer Science - Focused on System Analysis and Design, Human-Centered Design, Software Engineering, Telecommunications, Machine Learning.
- **Nigerian Navy Secondary School -** High School Certificate. Main subjects: Mathematics, English, Chemistry, Physics, Biology, Geography, Further-mathematics.
